SCOPE OF WORK:

The Hart County Board of Commissioners office is need of a replacement roof at the County Administrative and Emergency Services Building at 800 Chandler Street, Hartwell, GA. The existing roof is asphalt shingles (may be more than one layer). This bid will install a new 29 gauge (3 foot wide panel) metal roof (color selection to be done by the County from standard colors). A 2"X4" wood lathe (max. 2 foot o.c.) will be installed on top of the asphalt shingles by screwing the lathe using two 4 inch min. screws directly into each rafters (max 2 foot o.c.).

There will be some carpentry framing required to build up two sections of roof prior to installation of the new roof. This work will be included with this bid.

The first section is an area in the back of the building currently a fenced in area with a low metal frame and metal roof. The bidder will remove the existing metal roof system and place this in a dumpster provided by the County. This roof will be approximately 45 feet by 45 feet. It will be supported by two new framed wood walls to be constructed by this bid (see attached sketches). The wood walls will be 2X4 minimum studs 16"o.c. bolted into the existing concrete. A treated wood plate will be used as the base plate. The interior support wall will be studs only. The exterior wood wall will have 0.5 inch plywood (or OSB) installed on it. Headers will be installed as directed by the County. This new roof will tie back into the existing ridge at the center of this building. One existing roof vent will be extended as a part of this work through the new roof system. All framing for this new roof will be installed as part of this bid, including roof rafters, ceiling joists (tied back to main existing building framing). Roof deck sheathing will be installed on the rafters and 30# felt will be installed on the roof sheathing, prior to installation of the new metal roof system.

The second new roof area will be the flat area on the left of the building. This area will be built up with a gable end on the left side of the building. A minimum 3 on 12 (25% slope, gable end roof, gable on long side) will be installed as part of this work. This building area is approximately 20 feet by 40. The short sides will need to be built up to a level surface with a short knee wall prior to installation of the roof rafters. The roof will be tied back into the main building. All framing for this new roof will be installed as part of this bid, including roof rafters, plates, and knee walls. All walls (Gable, knee) will have 0.5 inch plywood sheathing installed on them. Roof deck sheathing will be installed on the rafters and 30# felt will be installed on the roof sheathing, prior to installation of the new metal roof system.

All bid prices submitted will include the entire turn key (complete) installation of the roofing system, including any materials and the roof framing. A dumpster will be provided by the County at no charge to the Contractor for disposal.

Weak areas of the roof will be replaced on a per unit basis as an additional cost. These will be pre-approved by the County.

Additional felt or replacement felt may need to be installed prior to roofing. Roofer will also install all flashings needed. Roofer will install ridge vent including labor to cut opening required at ridge for venting. There will be two plumbing penetrations that the roofer will install flashings for. In

addition there will be a drip edge at the fascia end. Any other vents will be either replaced with the ridge vent or will be extended through the new roof as part of this bid.
